MARVIN IS WIZARD AS A WEATHERMAN

New Chief of Bureau Knows the Why of Nimbus, Cirrus, and Other Things.

Almost daily the rude hand of science is further tearing from the eyes of mankind the filmy veil of superstition, and if the old Greeks, who believed that the four and twenty winds were made by Acolus whistling through his teeth and that earthquakes were only the struggles of Prometheus bound, were to get hold of Charles Frederick Marvin, chief of the Weather Bureau, they would make him drink a schooner of hemlock brew. For it is Marvin who knows more

For it is Marvin who knows more about the why of the nimbus, the cirrus, the cumulus and other varieties of cloud than any other living man, while as a seismologist, which is nothing more than a diagnostician of earthquakes, he is an authority of international renown. He does not know these things because he is chief of the Weather Bureau, however. It is the other way round—he is chief of the bureau because he is chief of the bureau because he is better qualified for that place than any man whose work is known to the National Academy of place than any man whose work is known to the National Academy of

Though only a minor Government employe eight years ago he was even then recognized by German scientists as one of the leading meteorologists of the world. About that time he took up the study of earth tremors and was firmly established as an authority in that subject when Secretary of Agriculture Houston accepted the resignation of Willis Moore as chief of the Weather

'Now," said Houston, "I must have lentist. Doesn't any one know a scientist?" Houston wrote to members of the a sientist. National Academy of Science, asking fhem to suggest a man for the place. He naturally expected them to nom-inate a member. Government employes are barred from membership in

"Marvin is the man."
And when Houston asked, "Who is Marvin?" they replied, vaguely, to the

Marvin entered by the civil service route in 1884, being the first high-grade man to take a civil service examina-Two years later he was chief of the instrument division. He had had a thorough training in mechanical science at the Ohio State University. Incidentally, he was a genius. All the work of the bureau is done by instruments. Marvin invented or improved them all t

them all.

Between times he has written many books filled with interminable pages of figures. The average reader finds them wildly incomprehensible. The scientist keeps them on his shalves for references. them wildly incomprehensible. The scientist keeps them on his shelves for reference. His tables of vapor pressure first reduced to mathematical formulas the processes which result in rain, hall, or snow. Twenty years are Marvin did the first scientific age Marvin did the first scientific will be seen the scientific and has weeks of work ahead of it. The indications continue that the hearings will last until October 25, and then McCherny & Joschim Sth and E. scientist keeps them on his shelves for reference. His tables of vapor pressure first reduced to mathematical kite flying. Then he invented a self- that it will require several weeks to

Municipal Storage Plant Hits Blow At High Living Cost

CLEVELAND, Ohio, Oct. 15 .- Mrs. Housewife of Cleveland has taken at least one fall out of that old bogey, High-Costof-Living, and the city has helped her do it. Use of the municipal cold storage plant was the hold by which the old bogey's shoulders were pinned to the mat.

The city's cold storage plant is open to the humblest citizen as well as the biggest commission merchant. Just now there is in cold storage, most of it put there in small lots by individuals; 6,000 bushels of cherries, nearly 40,000 pounds of butter, 44,700 pounds of cheese, 3,700 bushels of various fruits, and 42,200 dozens of eggs.

CONGRESS TO STAY

Growing Impatience Among Lawmakers Expected to End in Recess Talk.

Growing impatience among many the Democrats in Congress over the refusal of President Wilson to allow a recess or adjournment is manifested scademy, but the academicians replied: Talk of an effort to bring about a recess is still rife in both houses, but all the indications are that it will end in talk. While many Senators and House members are grumbling, compar-atively few of the Democrats are willing openly to take issue with the Presi-dent, and the result is that it is now usidered practically settled Congress will remain here through November. The tactics of Minority Leader "Jim" Mann in the House in insisting on keeping a quorum here add to the rest-

registering instrument—the Marvin agree on a bill.

meteorgraph—which brought back Senate leaders say the Administration bill as it was put through the ditions in the upper air. Then the House will be torn to pieces and pracworld became excited about kite fly-ting. H. Parker Willis, editor of the New

nave just concluded my monograph on that subject," said Marvin. "It is awaiting publication. Do you care to look at it?"

Chanute paid him the prize. Then he began to play with earthquakes. He invented the seismograph, the earthquake recorder which is in use wherever they use such things. He wrote a few large volumes about earth tremers. When not otherwise extractions have been made at the suggestion of persons in the Administration circle. However, that the suggestion of persons in the Administration circle. However, the support of the lieuwing forms as the s also said the authorship of the bill had not been broached in committee. He said the object of calling Mr. Willis was to get his interpretation of the measure.

Hears Banker Critics.

The committee continues to hear the riticisms of country bankers from the Boston convention. James H. Perkins, president of the State Bankers' Associais detailed as a tion of New York, while approving of and of Ordnance the reneral features of the bill, offered Adjutant Ger-criticisms of the same general nature as Average gross, Sept. 1913. other country bankers.

W. McLean Tilton, ir., of Pell City,
Ala., who called the conference of country bankers, denied any conspiracy and said the meeting was the spontaneous gathering of interested small bankers.

National Bank Examiner Charter.

Comptroller Makes Pay Rule Exception

Comptroller of the Treasury Downey Loss to the oft-repeated rule that a man living with his family is living at home DIEZ, adjusted general, will report travel allowance from the Government.

- neral, Eastern Department T. Hamburg, court stepographer at Not critical 1, to the commanding T. Hamburg, court stenographer at one at Lastern Pepartment, for Valdez, Alaska was ordered to temporary service at Fairbanks. He could not leave his wife and child on Vit Per Corps is detailed as a the Alaska coast, so he took them with him, and, unable to get suitable hotel accommodations for them at Fairbanks, which is a commodation for them at Fairbanks, coast, so he took them with him, and, unable to get suitable hotel accommodations for them at Fairbanks, rented a house. He submitted an expense of Figure of Figure 18. Brown, pense hill of \$5 a day for his maintention of Figure 18. rented a house. He submitted an ex-pense hill of \$5 a day for his maintenance. The Comptroller says that owing to unusual conditions in Alaska, and because Mr. Hambrug was away from his permanent station, and had no permanent station, and had no permanent station. manent home in Fairbanks, he can charge the Government for his own charge the Government for his own actual expenses, as soon as he deter-mines what they are. A flat allowance of \$5 a day cannot be allowed. Yesterday the Comptroller refused to give allowance to Marshall Love for the time he spent at his home in Seattle, because Seattle is his permanent resi-dence, and while there he lived with his

Judge a Peacemaker.

Judge James Push, in the United States branch of the Police Court, is some peacemaker. John Cusick faced the court today and heard his wife, Bertha, relate several instances during the past nine years when he abused her. This is the judge's first fall in Juvenile Court, and he said that he was fenlous and had an unmanageable temper. Judge Pugh gave both parties to the trial's lecture on conjugal bliss and sent them home rejoicing, after extracting from the husband the promise that he would minimize the cause of leafoury on the part of his wife. The first cold snap of the fall has
